

Site Survey Request Form

Information provided is required to determine optimal coverage for a OneVue Sync Bluetooth system. Failure to provide complete and accurate information may affect system coverage and cost.

Submit this form and all correspondence to:

siteevaluation@primexinc.com

Facility location detail

Facility Name	
Facility Address	
Planned system installation location	

Facility floorplan/map

Primex must receive a building floorplan/map that identifies IDF/MDF/LAN rooms and each planned clock location, and location of the planned or existing Ethernet networks for bridge placement.

Submit in either a PDF, TIFF, AutoCAD DWG, or JPEG file format. Due to file size, floorplans/maps can be submitted through fax email or Primex file sharing.

If floorplans/maps are not available, provide following details.

Total number of buildings where clocks will be installed	
Estimated number of clocks per floor	
Square footage per floor	
Total number of floors
